

Cdr RR Shibu (Retd)

Managing Director | Navsys Marine Technologies Pvt Ltd

Commander R R Shibu (Retd.) is a maritime industry leader, technology entrepreneur, and former Indian Naval officer with over two decades of experience spanning defence engineering, shipbuilding, advanced manufacturing, and digital transformation. He is an alumni of Indian Institute of Technology (IIT) Delhi. During his distinguished service in the Indian Navy, he held multiple appointments including those abroad. He played a key role in complex warship design and build programmes as well as indigenisation of warship building steels. He was also an advisor to the Kerala Startup Mission. Following his naval career, he transitioned into entrepreneur and build multiple companies. He is cofounder and Managing Director of Navsys Marine Technologies Pvt. Ltd., a Hyderabad-based marine and defence engineering company focused on indigenous design, development, and manufacturing of mission-critical naval systems and marine hardware. Under his leadership, Navsys has built advanced capabilities in composites, CNC machining, robotic welding, and simulation-driven product development, contributing to resilient maritime and defence supply chains. He also serves as a Managing Director at Hatch Marine Consultants Pvt Ltd, bringing strategic advisory and technical consulting expertise to marine projects. In addition to his marine leadership, Commander Shibu has also established HAS Technology solutions a leading IT firm with offices in Trivandrum, Pune, Toronto, Miami and San Francisco. Commander Shibu's combined defence, manufacturing and technology leadership positions him as a strategic contributor to maritime innovation and industrial advancement.
