

Jamil Al Ali

Regional Commercial & Business Development Director | Bureau Veritas

Mr. Jamil Al Ali graduated in 1990 as a Marine Engineer from South Tyneside College, UK, after completing his engineering cadetship sponsored by Kuwait Oil Tanker Company (KOTC). He sailed onboard various classes of vessels within the KOTC fleet, including product tankers, VLCCs, and gas carriers, rising through the ranks to Chief Engineer before joining the KOTC Head Office as a Technical Superintendent in 2002. He subsequently held several senior managerial positions at KOTC, ranging from Fleet Engineering Group Manager to Head of the Fleet New Building Group. Over the course of his distinguished career, he developed extensive expertise in tanker and gas carrier segments. Mr. Al Ali was widely recognized for his key role in maintaining the KOTC fleet to the highest international industry standards and received prestigious industry accolades, including recognition associated with Tanker Operator of the Year. He has also led the Kuwait delegation at the IMO Marine Environment Protection Committee (MEPC) meetings in London and represented Kuwait at COP23 - Shipping Initiative in Bonn, Germany. After a highly successful 30-year career at KOTC, Mr. Jamil Al Ali was appointed as Head of Regional Commercial & Business Development for the Middle East Region within the Marine & Offshore Division of Bureau Veritas.
