

Joe Brincat

Advisory Board Member | Maritime & Offshore Industry Veteran

Joe Brincat is a distinguished maritime and offshore industry veteran with over four decades of global experience spanning ship repair, classification, offshore construction, and regional leadership. He previously served as Vice President - Middle East Region at ABS, overseeing operations across 18 countries and playing a pivotal role in positioning ABS as the classification society of choice for offshore and tanker markets. Throughout his career, he has led landmark projects including FPSO conversions, jack-up drilling units, semi-submersibles, spars, and wind farm installation vessels-many of which were regional firsts. Joe was instrumental in establishing the ABS Middle East Engineering Office and the Regional Advisory Technical Committee, strengthening technical governance and industry collaboration. His strategic insight, technical depth, and governance experience make him a valued advisor to boards and institutions shaping the future of the maritime and offshore sectors.
