

Vivek Seth

Chairman of the Board | Shipfinex

Mr. Vivek Seth is a distinguished senior maritime leader with nearly 35 years of global industry experience spanning operational excellence, commercial strategy, and top-tier executive leadership. With over 15 years at the C-suite level, he has played a pivotal role in driving large-scale growth, transformation, and value creation across some of the world's most respected maritime organizations. He previously served as Senior Vice President at ADNOC Logistics & Services, where he led strategic expansion initiatives and transformation programs across key maritime verticals. Prior to this, he was the Chief Executive Officer of Milaha Offshore, steering the organization through sustained growth, operational optimization, and strengthened market leadership. From 2009 to 2014, he served as Managing Director - Middle East & India at Smit Lamnalco (UAE), holding full P&L responsibility across 11 countries. Under his leadership, the business successfully doubled in scale within five years, reinforcing the company's regional footprint and operational strength. Earlier in his career, Mr. Seth held senior leadership and operational roles with Svitzer and Tidewater across multiple geographies and maritime segments. His diverse exposure across offshore, port services, logistics, and asset-intensive maritime operations enables him to bring a holistic and forward-looking perspective to strategic decision-making. Currently, he serves as Chairman of the Board at Shipfinex, a pioneering platform transforming the maritime sector through fractional ownership of maritime assets, unlocking new avenues for investment and asset optimization. A former Chief Engineer, Mr. Seth combines strong seafaring foundations with seasoned executive acumen. He holds an MBA from Manchester Business School, UK, and a Bachelor's degree in Marine Engineering from MERI (formerly DMET), India.
