

# AJAY KUMAR SINGH

## HEAD OF SECTION, MARITIME ADVISORY INDIA | DNV

Ajay is a maritime consultant with around 10 years of experience. He holds a Master's degree in Rotating Equipment, an MBA in Health Safety and Environmental Management, and a Bachelor's in Mechanical Engineering. He leads and manages a diverse team of consultants and senior consultants at DNV Maritime Advisory India, delivering high-quality services to clients in the maritime and port sectors.

His expertise spans alternative fuel technologies for ships, techno-commercial studies for maritime decarbonization, and project management activities. Ajay has performed gap assessments for LNG and methanol bunkering terminal facilities in India, and managed health & safety assessments for ports in Asia and the Middle East. His project management skills cover maritime decarbonization, noise and vibration studies, safety risk and reliability, life cycle management, and shipping advisory in the maritime and port sector.

s the organization at events, and is recognized as an industry expert through his speaking engagements and contributions to conferences and webinars.
