

NIRANJAN NIGALYE

CEO & FOUNDER | NIRMON MARINE & OFFSHORE DESIGN PVT LTD

Niranjan Nigalye is the CEO & Founder of Nirmon Marine & Offshore Design, one of India's leading and fastest-growing ship design and marine engineering companies. He is a graduate in Naval Architecture and Ocean Engineering from the Indian Maritime University.

Before founding Nirmon, he worked with the Indian Register of Shipping (IRS), gaining valuable experience in ship classification and marine engineering. Under his leadership, Nirmon has grown into a team of over 100 design engineers, delivering engineering solutions for newbuild vessels, ship conversions, retrofits, offshore structures, and marine projects. Today, Nirmon partners with leading shipyards and maritime organizations across India, Finland, the USA, the Middle East, and Asia, providing world-class ship design and engineering services to the global maritime industry.
