

TIJO C. MATHEW

GM & HEAD – PORTS & HARBOURS BUSINESS SEGMENT, HEAVY CIVIL INFRASTRUCTURE | LARSEN & TOUBRO LIMITED

Mr. Tijo C. Mathew is a seasoned civil engineering and infrastructure leader with over 23 years of extensive experience in marine, ports, and large-scale infrastructure development. Currently serving as General Manager & Head of the Ports & Harbours Business Segment at Larsen & Toubro Construction, he leads strategic direction, operations, and execution of complex maritime infrastructure projects.

An alumnus of Indian Institute of Technology Madras and SP Jain Institute of Management and Research, Mr. Mathew holds an M.Tech in Construction Technology & Management and a Post Graduate Diploma in Executive Management. He is also a Chartered Engineer affiliated with the Institution of Civil Engineers, UK and the Engineering Council, UK.

He began his career with L&T in 2003, contributing to critical marine infrastructure projects including breakwaters, dredging, and LNG terminals. Between 2013 and 2016, he played a key role in the prestigious Riyadh Metro Project in Saudi Arabia, overseeing design and construction engineering for a 26 km elevated metro viaduct.

Upon returning to India, he led engineering design and coordination for specialized bridge and marine projects, and subsequently headed the Ports & Harbours Design & Research Centre. From 2017 onwards, he has been instrumental in delivering engineering excellence, value optimization, and tendering for multiple large-scale marine projects.

Since 2022, Mr. Mathew has transitioned into business leadership, successfully steering the Ports & Harbours segment with a focus on innovation, operational excellence, and project delivery. Under his leadership, major infrastructure projects have been executed for leading clients including the Indian Navy, Cochin Shipyard, Petronet LNG, DP World, and APM Terminals. With a strong blend of technical expertise and strategic vision, Mr. Tijo C. Mathew continues to be a driving force in advancing port and maritime infrastructure development in India and beyond.
